

CARE & MAINTENANCE

Lumaluxe Wallcovering

As with any quality wallcovering, proper care and maintenance will extend the life of the wall covering to help maintain its original finish.

Ordinary dirt spots may be removed with a mild soap and warm water. Clean from the bottom of the wall upward to protect the baseboard and prevent streaking. Rinse thoroughly with clean water from the top down using a sponge. Blot wall covering dry with a soft, lint-free towel. Try a small subtle spot first before attempting the entire wall.

Not recommended for cleaning the wallcovering are abrasive cleaners as they may mar the surface. Do not use active solvent based cleaning agents, lacquer thinners, nail polish remover, pine oil or cleaning agents containing bleach as they will remove print and/or finish from the wallcovering.
